murilo.gmartins@outlook.com

LinkedIn: <https://www.linkedin.com/in/murilo-martins-0b9938186>

IT professional with 4+ years of experience in infrastructure, networking, and cybersecurity.

Strong hands-on expertise in managing firewalls, servers, and cloud environments (Microsoft Azure), as well as monitoring and security tools.

Experienced in identity and access management, backup strategies, and technical support across N1 to N3 levels, including critical incident resolution.

Focused on designing and maintaining secure, scalable, and highly available environments.

## EDUCATION

Bachelor's Degree in Computer Networks | Impacta Tecnologia — Completed: Jun 2025

Cybersecurity (Undergraduate Program) FATEC Jundiaí | Expected Graduation: Jun 2027

Postgraduate Program in Cloud Computing with Artificial Intelligence XP Educação | In progress

Technical Degree in Information Technology Senac Jundiaí | Completed: Mar 2022

## PROFESSIONAL EXPERIENCE

### G.A.G. Electronics Recycling

#### IT Assistant (Infrastructure, Cloud & Security)

Dec 2025 – Present

- Improved overall company security posture by redesigning firewall policies and access control strategies
- Configured Fortigate firewall with FSSO integration, mapping Active Directory user identities to enforce group-based access control
- Implemented isolated backup infrastructure to enhance data protection and ransomware resilience
- Deployed and configured Wazuh (SIEM) and Zabbix to improve monitoring, visibility, and incident detection
- Implemented GLPI as an IT service management (ITSM) solution, improving internal support and ticketing processes
- Designed and deployed Ubiquiti network infrastructure, significantly improving Wi-Fi performance and stability
- Built and deployed a virtualization environment to support internal infrastructure services
- Configured a Linux server with OpenVPN, integrating with Fortigate to provide secure remote access to the internal network
- Implemented RustDesk for secure remote access using private key-based authentication within the company environment
- Deployed Security Onion for network monitoring and log analysis (Layer 2 visibility)
- Implemented Microsoft Defender to centralize endpoint protection and improve security management across all company devices

- Managed Azure environments, servers, and infrastructure (Windows/Linux)
- Supported N1–N3 operations, including critical incident resolution

## **Technical Electronics Assistant**

May 2025 – Dec 2025

- Performed hardware diagnostics, testing, and technical maintenance on IT equipment
- Supported internal processes for equipment classification, reuse, and disposal

## **Definity Tecnologia**

IT Support Assistant (Sep 2024 – Dec 2024)

- Managed support tickets and provided remote technical support
- Configured and maintained corporate VPN networks
- Administered Active Directory (user management and access control)
- Provided support for business applications and printing infrastructure
- Installed digital certificates and delivered end-user training
- Performed preventive maintenance on operating systems

## **GreenTec I.T Solutions**

IT Support Technician (Level 1 & 2) (Jul 2021 – Sep 2023)

- Provided technical support (Level 1 & 2), including user assistance and training
- Administered Active Directory and managed Windows and Debian servers
- Maintained VPNs, DNS, and applied security patches and policies
- Automated tasks using scripts for backups and routine operations
- Monitored infrastructure, maintained documentation, and managed asset inventory
- Installed and configured software, hardware, and virtual environments

## **TECHNICAL SKILLS**

Cloud & Virtualization: Microsoft Azure, Proxmox

Operating Systems: Linux, Windows, Windows Server, macOS

Networking: Cisco, Mikrotik, VPN, DNS

Security: Fortigate, Palo Alto, PfSense, Wazuh

Monitoring & ITSM: Zabbix, GLPI

Scripting & Databases: Python, SQL

Infrastructure & Services: Samba, Apache

## **CERTIFICATIONS**

**Microsoft Certified: Azure Administrator Associate (AZ-104) — Valid until Apr 2027**

**Microsoft Certified: Azure Fundamentals (AZ-900)**

**Google Cybersecurity Certificate — Coursera**

**Professional Pentesting Course (250h) — Solyd**

**Linux Administrator (140h) — IGTI**

Additional Training: Networking, Python, Cloud Computing, Linux Servers, ISO 27001

## **LANGUAGES**

**Portuguese — Native**

**English — Intermediate (B1/B2), actively improving through weekly practice**

**Japanese — Intermediate (JLPT N5, 2024)**
